MR. BEACH · MATH 6 AND MATH 7/8 COMPACTED

Your student's math calendar

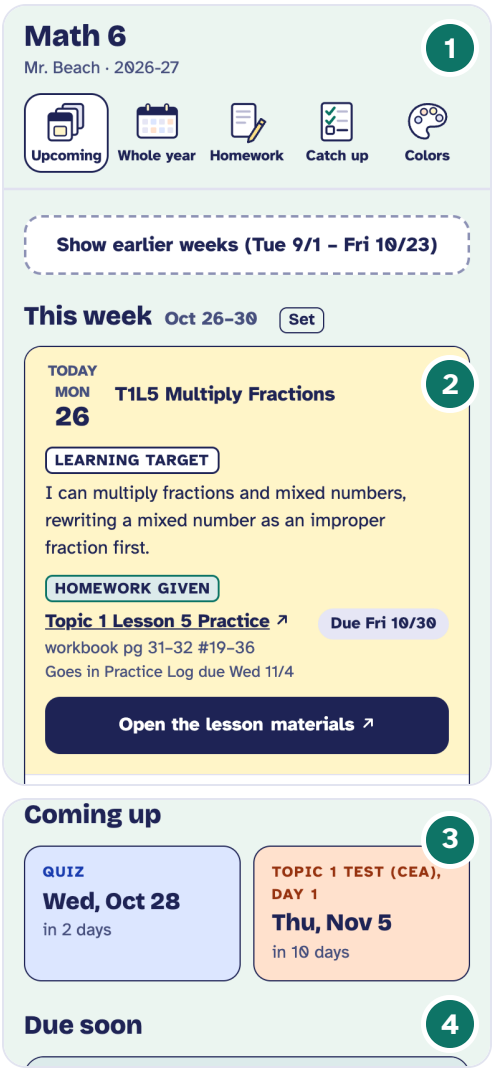

One page shows what we're doing in class each day, what homework is due and when, and when the next quiz and test are. It updates whenever plans change, so it's always current.

No login needed. Tip: on a phone, use "Add to Home Screen" so it opens like an app. Students can also reach it from the link in Schoology.

What's on the page

1 Four views

Upcoming is the main view. **Whole year** shows a month at a time, with its tests and days off. **Homework** lists every assignment this unit. **Catch up** shows what we did each day, for a student who was absent.

2 Today

The yellow day in the list, already open: today's lesson, what we'll learn, and the lesson materials.

3 Coming up

The next **Quiz** and **Test**, with how many days away they are.

4 Due soon

Homework that's still open, with its due date. **Due tomorrow** means it's checked in class tomorrow. Practice Log homework is listed under its **Practice Log** band. Each assignment links to its page in Schoology.

Further down the page:

5 Every school day

A list of days, week by week, through June. Tap any day to see the learning target, the homework given, what's due, and a link to the lesson materials when there is one.

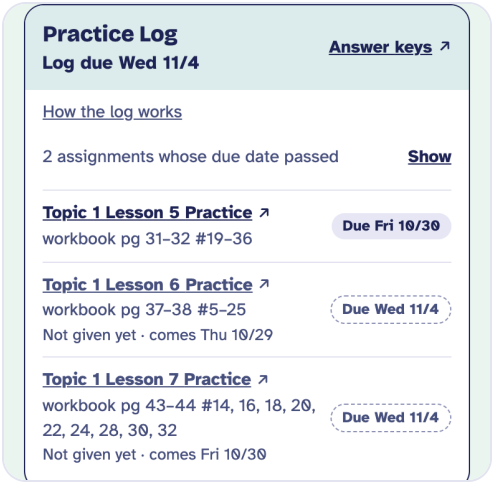

Private by design. The calendar has no student names or grades. Grades stay on the Source.

Mr. Beach

The Practice Log

The Practice Log is a sheet where your student keeps track of their homework. It's how we make sure every assignment gets done and checked, not just turned in.

1. **When homework is given,** they write it on the log.
2. **On its due date,** we check it in class against the answer key, and they update the log.
3. **When the log is due,** they check that it's complete, staple it to the work, sign it, and turn it in.

A log covers about two weeks (up to five assignments). It's usually due on a Friday, or the class before a test, so all the work is checked before the test.

To see what goes on the log: open the calendar and look under **Due soon**. The Practice Log band lists every assignment that belongs on it, each with its due date. Assignments that haven't been given yet say "Not given yet." The **Answer keys** link opens the answer keys.

When homework is due

Given Monday, Tuesday, or Wednesday	due that Friday
Given Thursday or Friday	due the next Wednesday

The calendar always shows the exact date, so you don't have to work it out.

When plans change

Assemblies, snow days, and lessons that need more time move things. When a day is lost, the calendar moves every lesson after it.

- This week is **Set**. Days after the dashed line are **Planned** and may change.
- If a quiz, test, or due date your student may have seen changes, that day gets an **Updated** tag that says what changed.

Three questions to ask each week

1. **When is the next quiz or test?** (Coming up)
2. **What's due this week, and is it done?** (Due soon)
3. **Is your Practice Log up to date?** Ask to see it.

Absent? Open **Catch up** to see what we did that day, the homework given, and what was due.

Each week: an email from me with the week ahead, what's due, and vocab to ask your student about.
